

Hi, I am Tyler, I am in grade 4. Olivia was in my class last year. She was great to have in class.

Olivia was just like me. She liked doing bowling and crafts. She loved all the same types of food as me. Olivia liked dogs. Olivia liked to play the same as other kids do. She liked to play jump rope and hopscotch. She sang in the choir.

We have all helped Olivia learn. I have learned that all people should be respected the same. Even though Olivia has autism, we should treat her the same way. I think Olivia should be allowed to go to the same school as us because she is very well behaved, is a good learner and is fun.

Tyler B.
